

Coronado Schools Foundation

Block Grant Spending Proposal

School Name: Palm Academy
Principal: Kevin Nicolls
School Year: 2011-12

Total Block Grant Amount: \$ 1215.00

1. Block Grant Committee members:

Melinda Clay, Secretary
Michelle Walker, Mathematics Instructor
Tara Abrams, CRG/Social Skills Instructor
Kim Strassburger, Language Arts Instructor
Laurie Worthington, Social Studies Instructor
Tammy Cusick, Science and Culinary Arts Instructor
Jeff Fancy, Special Ed Teacher
Kevin Nicolls, Principal

2. Main areas funds will be spent on:

This year we would like to request items that primarily align with our site strategic plan in the area of Curriculum Development and Support, including Career and Technical Education (Culinary Arts/Independent Living Skills). We have requested funds to support our Social Studies, and Culinary Arts classes as outlined below.

3. The Board of Directors appreciates your feedback. Please comment if the current CSF funding guidelines are meeting your site's academic needs.

We are very grateful for all of the support CSF provides our program.

4. Plans for publicizing funded items at site as well as to parents and community.

We will label the equipment and include "supported by CSF" in all of our brochures, menus, and letters to parents.

LIPP REQUEST

Lipp Family Foundation Grant, Fall 2011

Focus: Math/Science

School: Palm Academy
Date Completed: 5/20/11
Grant Focus: Software

Principal: Kevin Nicolls
Lipp Grant Awarded: \$200

1. School members involved in determining fund distribution in the areas of math and science:

Michelle Walker, Mathematics Instructor
Tammy Cusick, Science Instructor
Kevin Nicolls, Principal
Melinda Clay, Secretary

2. Focus for the funding:

We intend to purchase 3 teacher access licenses for the Atomic Learning Tech Skills Video Tutorial Library. The licenses cost \$100 apiece. We hope to use a portion of our CSF Block Grant to complete this purchase.

3. Thanking the trustees of the Foundation:

We would all sign a handmade card thanking the trustees for their support of our program.

4. What the trustees would see if they were to visit:

Students of every age (16-18), grade(10-12), and skill level (remedial to advanced) using 21st Century Productivity and Creativity tools in their academic courses. Teachers and students will have access to effective "just-in-time" instruction to enhance their skills with current learning technologies.

5. Areas in math or science that will require future funding to continue the CUSD tradition of academic excellence:

We foresee adding more online course options (remediation, supplementation, credit recovery) in the areas of math and science.

6. Contact person:
