

STEM and Arts Pathways Programs Fuel Student Success

As we embark on a new academic year, Coronado Schools Foundation (CSF) wants to thank our very generous community for their continued support of our students and schools. Because of your past donations, CSF provided funding to pilot the STEM and Arts Pathway programs launched at each school site in the district in 2019-20. More than 3,100 students benefited from these enrichment programs, designed to spur creativity, innovation, and passion as students engage in learning about Science, Technology, Engineering, Math, and the Arts.

“The goal of the STEM and Arts Pathways is to ensure that all children, beginning as early as TK through 12th grade, receive hands-on exposure to STEM and Arts enrichment activities that provide educational pathways for the rest of their lives,” explains Dr. Megan Battle, CUSD Director of Learning. “By ensuring children have early, ongoing, and innovative instruction in the critical subject matter of the sciences, technology, engineering, math, and the arts, we hope to fuel their interest and ignite their passions at a very young age.”

These programs were a resounding success. Every child enrolled at both Silver Strand and Village Elementary Schools had weekly access to the state-of-the-art Innovation Labs (iLabs) thriving on each of those campuses. Students learned a variety of skills in iLab, including how to navigate iPads for the youngest of learners, to building manipulative robots for older students. Elementary aged students also had weekly instruction in Visual and Performing Arts (VAPA) classes, providing hands-on art instruction that otherwise would not have been possible due to the lack of state funding.

Designed as learning pathways, these programs continue through Coronado Middle School (CMS) and Coronado High School (CHS), where students’ opportunities for educational enrichment expand and advance. In addition to the state-of-the-art iLab at CMS, students had the opportunity to take Intro to Coding and Coding courses, focusing first on the acquisition of basic coding skills, then advancing to more rigorous instruction creating animations, programming Ollie and Sphero robots, while gaining advanced skills in code languages like Python and Swift Playgrounds. Middle schoolers also took Engineering courses, gaining the background required to advance into Engineering at CHS. Similarly, visual and performing arts instruction progresses at CMS and CHS, to include KCMS

Broadcasting, Digital Media and Film, AP Music Theory, Band, and Advanced Art among other more rigorous classes.

Next year, your donations to CSF will continue to fund these STEM and Arts Pathway programs at every CUSD school site. Below is a breakdown of the funding per pathway and campus, where your donations are put directly to use to ensure educational enrichment so vital to every student’s academic success.

Thank you to our donors listed inside our CSF Times. Your generosity ensures that our students continue to thrive!

OUR MISSION

Through community involvement and support, Coronado Schools Foundation raises and manages funds to provide exceptional learning experiences for all Coronado Unified School District students. Over \$10.6M has been returned to CUSD since 1982; Tax ID# 94-2745484

210 Sixth Street,
Coronado, CA 92118
619-437-8059

THANK YOU CSF DONORS

BUSINESS, COMMUNITY & INDIVIDUAL PARTNERS 2019-20

This list recognizes generous donors who made a monetary gift to the Coronado Schools Foundation through annual campaigns between 7/1/2019 and 6/30/2020. Every gift helped us reach our record \$1M return! We did our best to list every name and donation.
If we have made an error, please accept our apologies and contact CSF at csf@csfkids.org or (619) 437-8059, ext. 3. Thank you!

Lifetime Achievement Award

Doug and Mia Campbell received the Lifetime Achievement Award from the CSF Board of Directors for their longtime commitment to Coronado schools and their extreme generosity to the Coronado Schools Foundation. They have lived in Coronado for 27 years and are long-time donors to CSF. They are also regular guests at the annual Changemaker Event where generous donors to CSF are acknowledged for their philanthropic support. Their son Sean has been enrolled in Coronado schools since kindergarten, and before that attended preschool in our community. He is currently a sophomore at Coronado High School where he is particularly interested in science and math. He is also in the CHS Advanced Band where he enjoys performing as a percussionist. He has a keen interest in computer science and hopes to one day study computer science in college. CSF is so grateful to the Campbell family for their generosity, and for their significant support of our local students and schools.

Volunteer of the Year Award

Jennifer Landry was named the Volunteer of the Year for 2019-2020 by the CSF Board of Directors for her extraordinary service as a CSF volunteer for more than 25 years. Currently the Technology Resource Teacher and Teacher on Special Assignment (TRT ToSA) for the District, she came to CUSD in 1992 as a Classroom Aid, then began her teaching career at CMS in 1997. She taught Social Studies, English, and Technology before moving on to her current position. She has spearheaded the CSF staff and teacher giving program in CUSD for many years, which last year amounted to more than \$25,000 donated by district employees. Jennifer has volunteered for CSF in numerous ways, from auction procurement and night of delivery to managing the Food Court of Telethon Quad and visiting local businesses for donations. She is also an Islander Society member, as she has included CSF in her estate plan with a legacy gift. According to Jennifer, “Our schools and curriculum would not be as robust as they are without the funding provided by CSF.” She noted that CSF has evolved from funding classroom items and supplies to supporting student learning experiences and enrichment across the district. “One thing that makes me so happy is riding my bike around Coronado and seeing the yard signs identifying our donors to CSF,” she notes. “It’s so rewarding to realize that CSF helps bring our neighbors together, whether or not they have children enrolled in our schools.”

DONNA SALOF

Presents

Who Durnit?

A Coronado Mystery

Date: October 17th
Time: 5:30-8:30pm

Coronado Schools Foundation Auction

Nothing is stopping this year’s Coronado Schools Foundation (CSF) Auction...not even a bad guy! During this year’s “Who Durnit?” themed event, families will dine at home, watch and participate in the virtual event, and solve a mystery for a chance to win some killer prizes. (As CSF leaders explained, it would be a crime to miss it.) The annual CSF fundraiser, taking place on October 17th and presented by Donna Salof, will invite families (yes, kids are invited too!) to dress in their “mystery best.” (Think: Clue-inspired, detective-garb, Sherlock Holmes-swank.) And yes, there will be a costume contest and a prize for the sharpest-dressed detective team. “It will be a family event in your own home,” explains Jeanmarie Bond, CSF President and CEO. “Families will buy their ‘Who Durnit?’ mystery kit and be tasked with solving the crime. The kit will have some hints and items in it, but you’ll have to watch and participate in the show to get all the clues.” Throughout the course of the evening, different clues will be revealed by local celebrities, such as the Coronado Chief of Police, the Mayor, and more. Parents and kids will have to use their Coronado smarts and clever crime-solving skills to piece together the mystery. Registration for “Who Durnit? A Coronado Mystery” will open in September. Register early at csfkids.org/auction to ensure your family’s chance to solve this elusive Coronado mystery.

Jill Hardman Legacy Gift

When Jill Hardman, who was a longtime resident of Coronado and generous donor to Coronado Schools Foundation, passed away in 2019, she left her condominium in The Landing to CSF as a bequest for the benefit of our schools. That property was transferred from her estate to CSF this spring and listed with local realtor Mary Jo Morgan. The property sold this summer in record speed, bolstering the Jill Hardman Art Fund endowed with CSF. Jill was an avid aficionado of the fine arts, receiving her Bachelor’s in Fine Arts then continuing her graduate studies in Paris, France. She discerningly applied her fine arts background to business, opening the regionally acclaimed Art and Frame by Wood Gallery in Coronado. Her custom frame designs went far beyond the ordinary, many of which became works of art in themselves. Her true passion was “to bring joy, art, and beauty” into our community, and her legacy will live on through her extraordinary gift. It is intended to support fine arts education for students enrolled in CUSD, ensuring that her passion for the fine arts continues into perpetuity. Thank you, Jill Hardman, for this incredible gift that will educate aspiring fine artists in our community for decades to come.
